Treasurer

L. Evanoff
Secretary

AUDIO-VISUAL CLUB

The Audio-Visual Club was organized on September 23, 1963. The following officers were elected: President, Jenny Lundecker; vice-president, Arlene Carlo; secretary, Alice Fields; and treasurer, Peter Buck.

At a later election, Peter Buck won out as chief technician, while Robert Omnik took the position of assistant technician.

The membership roll reads as follows: Nellie Gallahorn, Frances Duncan, Isabel Hopson, Henrietta Johnson, Nora Johnson, Myra Vlasoff, Lucille Hopson, Kathy Korpusek.

Charlie Lee, Johnny Hawk, Arnold Garner, Roslyn Jones, Hazel Vent, Frank Kellner, Vivian Duncan, Evelyn Inga, Blanche Jones, Helena Thomas, Dorothy Larionoff.

Frieda Shanigan, Jack Ashenfelter, Herman Hess, Olinka Nicolai, Lucy Nicolai, Agnes Michael, Esther Ambrose, Ellen Williams, and Evelyn Tuzrolyuk.

Audio-Visual Club members are also members of THE SCHOOL PROJECTIONIST CLUB OF AMERICA. Headquarters for this organization is State College, Pennsylvania.

Students in the Audio-Visual Club at Wrangell receive training in varied areas. All who want to can develop skills in elementary typing. Every member learns to operate all of the school's audio-visual equipment. This group receives training in library skills while helping the teacher-librarian with the upkeep of the library.

One of the chief functions of the organization is getting out the school paper, the WRANGELL EAGLE.

Other students will be selected for membership as the school year progresses and enough time and space become available.

WRANGELL INSTITUTE

XX

ANB CONVENTION THIS MONTH IN WRANGELL ALASKA

OUR HALLOWEEN PARTY

We had a Halloween Party. A committee planned the games. We played "Move Up Johnson," "Winking Game," and "Blind Man's Buff." We dressed it up in a big dress and fancy hat. Then we blindfolded him. He looked real funny. We laughed and laughed. Miss Stephens gave us nice refreshments. While we were twisting a real ugly face appeared at our door. We all screamed and rushed to one corner of the room. It was only Mr. Oskolkoff playing a Halloween trick on us.

Karen Mixsooke

We are getting ready for Thanksgiving Day. We made a horn of plenty and put it up on our bulletin board. We each wrote on a strip of paper what we are thankful for. We pinned these upon the bulletin board. We read these every day and think of many more things we are thankful for.

Balassa Nick

We look out our windows every morning and watch the snow on the mountains. It is coming down closer. Before too long we will be making snowmen or sliding down the hills. Winter is lots of fun.

Carl Nelson

The following folks have been on the sick list. Phil Hoffman, Raymond Penetac and Daniel Callahan. They are back in school now. Wassilly Evan is taking his turn at the Health Center.

Thomas Ablowaluk

ROOM D

TYPIST - ROSLYN JONES

LITTLE BLUE BIRD

A little blue bird came down from its nest. His wings and his little tail were blue. When the bird got larger he was all blue. One day when he was flying he saw two birds just like him. He flew down to them. Just then they all flew together. The birds had so much fun flying all together.

Frank Jones

CUB SCOUT

I am a Cub Scout. Marvin, Roy, Frank, Willie, Rodney, and John are Cub Scouts too. We saw a fire truck in town. We went to town to see the fire truck. The fire truck's honk is loud. The fire truck is big.

Richard Nicholi

GRAYLING

When I was coming from Grayling, I saw my grandmom at fish camp. I like fish.

I am going to have a new school next year in Grayling. I will have a new home too.

Eleanor Rose Deacon

SCHOOL

I like to read in school.

We write letters on Friday.

Rita is a big girl.

Alma and Annie are my friends.

Miss Winfrey is the teacher.

We like school. Virginia Thompson

HOME

At home we hang fish all day. We go pick berries up a hill. It is not far. We go to the fishwheel and we get lots of fish.

Annie Alexie

ROOM B

Mrs. Bight (Juneau Airport Gift Shop) came to visit the campus October 13. She was especially interested in seeing the little ones but also to see the Wrangell Institute campus and how it helps the many children she meets coming through Juneau in the fall.

Mrs. Bight was accompanied by Mr. Bight. The Bights enjoyed the tour of the campus which included the Superintendent's house, the Girl's Dorm, Academic building, Dining Hall and Boy's Dorm. Some of the children remembered her and she had her picture taken with a group of little ones. They saw many happy faces.

After touring, they both expressed their sincere appreciation. Mr. Bight plans to help make all the children happy on Christmas.

SCHOOL

We have lots of fun.
We do Arithmetic.
We make lots of things in school.
We had fun on Halloween.

Sophie Rock

SCHOOL

We go to school.
We read in school.
We play games.
We had a party and danced.
We go to the gym on Friday.

Martha Macar

HALLOWEEN

I had fun on Halloween.
I played Tag.
I scared the kids with my mask.
Leonard walked around with me.

Tim Michaelson

I have been to the Health Center.
We play with toys in the Center.
I like to go to church.
I like to play with my plane.

Leonard Elachik

GROUP H

CHEERLEADING PRACTICE

Last Wednesday many of the girls went to the gym for cheerleading practice. We had five minutes to think up what motions we were going to do. Many of the girls did well and demonstrated their motions to another group.

Mrs. White said being chosen will depend on ones height, the way you put yourself forward and how you lead your group.

The next time we go, the judges will be there to choose the cheerleaders. So girls start practicing if you want to be a cheer-leader.

Anastasia Kashevarof

VETERANS' DAY

November 11 is a holiday and we are very happy that we do not have to go to school on that day. But how many of you know why we celebrate this day?

Ever since November 11, 1918, we have been celebrating "Veterans' Day." The reason why we have Veterans' Day is because it reminds all Americans of the tragedies of war. This day commemorates the courage and patriotism of all the men and women who have served in the armed forces of the United States.

Prior to 1954 this day was called "Armistice Day", commemorating the signing of the armistice agreement by Germany and the Allies on November 11, 1918. Many other countries, such as Canada, Great Britain, and France celebrate this holiday.

As we enjoy this day let us remember the men and women of the armed forces who have made this holiday possible.

Blanche Jones

STUDENT COUNCIL ELECTION

Last month the students of Wrangell Institute voted for students who would be Student Council members for this year. We are proud to have had three members elected from Group H to serve on the council. James Norton was elected as Vice-President; Larry Evanoff, Secretary; and Robert Adams as Councilman.

We know they will do their best throughout the year.

Shirley Bekoalok

HALLOWEEN

Halloween has come and gone already. It was an exciting day! While we were doing our arithmetic a visitor came to our room. As he walked through the door, the girls screamed! Later we learned it was Mr. Heflebower dressed in a costume. We hope you all had a frightening Halloween.

Rita Jacko

SCIENCE FIELD TRIP

Last month Room H went on a Science field trip to the beach and up the road. On the beach we picked up things like crabs, bugs, worms, and so forth. As we walked up the road we picked up different leaves and plants. After we returned to the classroom, we put the things we gathered in jars and cans. These were left on the table to work with the next day.

Next morning we were surprised to see little crabs crawling about on the floor. Ann was especially surprised when she found one crawling on her desk. We all had a good laugh.

Lillian Shavings

My Ambition

I have one ambition in common I would like very much to be a nurse.

Carol Curtis

When and if I get through with collage I'd like to be a nurse in a big hospital.

Barbara Swanson

I have nothing concerning my future just that I might go to Mt. Edgecumbe next year. I have no special plan for the future right now.

James Norton

Guess you know my name is William. I have nothing in common just that if I ever make it to a little higher grade I will go to another school such as Edgecumbe or any other school I have to go to.

William Anderson

I want to be a secretary in 1968, and I want to get married and have five or six children. I also want to go to Hollywood and become a star.

Agnes Michael

I would want to be a secretary or a stewardess if I ever have the nerve to study and follow directions.

Helena Thomas

After I finish high school I am going to Minnesota and visit my friend for a year. Then I'll go to Anchorage and be trained for a nurse. Then I'll go to St. George and work as a nurse there.

Anastasea Kash

Who's Who

Henrietta

The girl is a freshman from White Mountain. She wears glasses, she has brown hair and eyes, and she wears black loafers, and she is about 5 feet tall. She also has a pretty gray coat. She does like "Hi-Ho" crackers, and pepper on her tomatoes. She likes popcorn and fudge. Her favorite song is "I'm a fool to care." Her S.P. is E.P. and she likes Wrangell Institute!!!

WHO IS SHE??????

This boy is from White Mountain. He is in the Audio-Visual Club. He is treasurer and equipment training chief in the club. His favorite song is "Slow Slow Twisting" by Chubby Checker. He twists real cool. The boy likes lots of mustard on his steak. He doesn't like candy and milk. His S. P. is G.S. from Stebbins, and he wears slick black shoes.

WHO IS HE??????

READ AHEAD FOR THE ANSWERS!

LIMERICKS

Once there was an old man named Ben,
Who was different from most men.
He was tall and fat
He looked like a rat
That funny old man named Ben.

....Karen Selanoff

I saw a boy going to town
His hair was brown.
He had a big hat
For he was fat,
That boy going to town

....Peter Askook

ROOM F

SCIENCE

Most birds and reptiles produce their young by laying eggs. Most mammals produce their young alive.

There are all kinds of animals. Some are mammals, birds, reptiles, fish, amphibians and insects. Mammals take more care of their young because they have fewer.

Fish, amphibians, and insects take little care of their young because they lay hundreds (more or less) of eggs. After they lay their eggs they just leave them. Often many of them die, but some live to become adults like the animal that laid them. Every living thing begins its life as one little cell from a plant or animal like itself.

Margaret Elachik

BOOKS TO READ

All the books on our book table in Room F are for the boys and girls in our room to learn what early man was like, and how they made their living. Also, some are about animals and birds. They tell how they take care of their young.

The class enjoyed reading these books about early man and birds and animals take care of their young.

Fred Tukrook

READING

The students in Room F are reading from a book called The New People and Progress. It has wonderful stories and many pictures in it.

We read the stories to ourselves and sometimes we read out loud to the class. We all get a chance to read out loud. Some of the time we work in our workbooks.

We read from our Social Studies books, too.

Harold Maxim and Harry David

SPELLING

The boys and girls in Room F are studying spelling. In our text books the students learned how to pronounce the word. In our workbooks we learned about the short and long vowels.

Helen Motton

LANGUAGE

"Subjects and Verbs"

In these past weeks Room F boys and girls have been studying about subjects and verbs in our Language Books. The students wrote sentences in class and found the subjects and verbs. The class still needs to study more about them.

EXAMPLE:

Down the steps ^vrolled
the ^sbaby.

ARITHMETIC—"Multiplying"

Multiplying is not subtracting or dividing. Multiplying is a short way of adding. Some boys and girls know how to multiply. We learn how to multiply in our Arithmetic Books. Some multiplying is easy and some is hard.

Natalia Jackson

SOCIAL STUDIES

We learned about the country of Egypt. We have been working very hard on the study of this country. We have learned that the Egyptians were the first inventors of the calendar, writing, many arts, and irrigation. They were very famous in their time. The Egyptians built one of the world's largest monuments, the pyramids. M.J.H. Jr.

TYPIST -- OLINKA NICOLAI

Room F

WINTER IS COMING

It will soon be winter here at Wrangell. There is snow on the tops of the mountains. There is frost on the ground. The air feels cold. At night it gets quite cold. Geese and ducks are flying pass this place. Soon it will start snowing and the boys and girls will have fun outside.

Gabriel Nicholi

WORKING AT THE STAFF HOUSE

Mischa Auyiye and Conrad Koenig worked at the North Staff House. They made a dollar and fifty cents. They washed and waxed the hall floor. Then they ate ice-cream and figs and grapes. When they finished they thanked Mrs. Johnson, and went to the dorm to put their money in the bank.

Conrad Koenig

GIRLS STILL HIKING

The girls go hiking every Saturday. When they go hiking they pick or eat berries. This week when they went only big girls went, because it was too cold for the little girls. Some of the girls stayed in the guidance room and worked on crafts such as bead working, sewing and many other crafts.

Margie Painter

MANY THINGS TO DO

This month we had lots of things to do. We had to go to school, and we did our details in the dorm, and in the school. Some boys washed the windows and the girls swept the floors. There was a fire drill one morning at 8:30, and everybody went out of the school.

Nicolai Nicolai

TYPIST - LUCY NICOLAI

BOYS' DORM DECORATED

The boys' dorm was decorated early for Halloween. There were orange and black streamers hanging from the ceiling which could be seen from outside the windows. The boys, also drew many things to hang on the ceiling. There were witches and pumpkin-faces. The witches looked very funny. The boys had much fun getting ready for a gay Halloween.

Florence Kenezuroff

DANCING AT THE GYM

I thought dancing was boring, but it is fun. I am going to try to learn more about dancing this year. Saturday, November 2nd, there was a Halloween Dance. Boys were supposed to dance with girls. There were refreshments.

Margaret Elachik

HALLOWEEN PARTY

October 31st. Room F had a Halloween Party. Frederick Turook, Florence Kenezuroff, and Lily Neakok, the class officers, were in charge of the games. The games played were "Musical Chairs," "Pin the Tail on the Cat," and "Wink-um." The winner for Musical chairs was Gabriel Nicholi, and the booby prize went to Conrad Koenig. For pinning the tail on the cat the prize winner was Rose Prince. She put it just where it belongs. Next came the refreshments. Harry David and Daniel Douglas helped with these. Every student had a good time.

STUDENT COUNCIL

The Student Council was elected on the 25th of October. The campaign speeches were given on the 24th. Mr. Sorenson said the speeches were all very good.

The next day, election day, the class rooms went by groups; they finished voting Friday morning. Eleanor Simon, Peter Buck, Jo Ann Abalama and Agnes Michael were taking care of the ballots.

For the Student Council the following people were chosen:

Arnold Garner: President
James N orton: Vice President
Larry Evanoff: Secretary
Kathleen Korpusik: Treasurer
Robert Adams: Councilman
Frieda Shannigan: Councilman
Robert Nelson: Councilman

They are a very fine group of people. They will try to make the school year a pleasant one.

...Arlene Carlo

ALGEBRA IN ROOM J

In the last week of October, on Monday, we are starting on algebra. The week before this, the class just finished reviewing volumes which took us about a week. Before that, we had reviewed on percentages and areas. This took us about seven weeks to finish.

Then at the end of the eighth week, on Thursday, the class took a test on formulas for finding volumes and areas. Most of the class did pretty well. Next day we took a test over everything we had covered this first quarter.

Our teacher said that we are nine weeks behind in algebra and have to work harder to catch up. He also said that if we do well in the first three weeks of algebra, we won't have so much trouble.

...Andrew Angaiak

CHECKING UP ON EYES

An eye doctor came this month to check on the eyes of some of the students here. A lot of girls had to go back and forth to the Health Center.

Most of the girls who went to the Health Center have to send for glasses. Last night, October 23, in the girls' recreation room the girls picked out the kind of glasses they wanted.

When the students who need glasses get their glasses, we hope they take good care of them.

...Barbara Swanson

THE BIG MOVE

In the dorm last month there was a big move. Some of the south dormers moved to the north dorm. The first night everything was noisy. It was supposed to make the dorm more quiet but it was the opposite that first night.

...Peter Askook

BISHOP GORDON VISITS WRANGELL

Bishop Gordon visited Wrangell on October 14, 1963. Everyone was in school when he came so he visited us in our classrooms. Mr. Sorenson and Father Files showed him around.

...Roger Henry

FRESHMENSATURDAY NIGHT DANCES

Last Saturday night at the dance we were experimenting with new dances. Among these was the Snowball. At first one couple started then they would stop and ask another person to dance. Every time they would dance the crowd would get bigger. It was a lot of fun.

The next kind of dance was the Bunny Hop. It was fun but then the line got too long. The best part of it was Mrs. White doing it. She would get mixed up and we would just start laughing.

The third dance was the Mexican Hat Twist. It was kind of hard because right in the middle of it we had to Cha Cha. Not very many kids did this dance.

I hope next week we try some different dances.

...Laura Woods

On Nov. 2 we had a Halloween Dance. The dance started at 6:30 and ended at 9:45. From 15 minutes till 8:00 to 15 minutes after 8:00 they had girls' choice of a partner. About 9:00 we had refreshments and some spooks came right after that. We chased them off and danced until 9:45. Boy, did we all have fun!

...Gerald Gregory

Everyone had fun at the Halloween Dance. The Halloween Dance was on Saturday and was one hour longer than usual.

There was girl's choice for half an hour. It seemed endless.

At the dance there were several boys in costumes. Two of them were silly. At the end of the dance we had visitors, they had costumes on and scared some girls.

We also had refreshments. The refreshments were sandwiches, cookies, candies, apples, and apple cider. We had seconds too.

...Olga Takumjenak

PHYSICAL EDUCATION

The boys here in Wrangell Institute have enjoyed their previous times in P.E. This is one of their favorite subjects!

The boys in Room J have had physical education on Mondays and Wednesdays. These two days are always welcomed.

In the previous days passed, we have learned to play volleyball and Eskimo football. Now the boys are looking forward to learning more and better games.

...Johnson Eningowuk

Girls in the freshmen group had a volleyball contest. The freshmen are divided three groups. The rooms are G, I, and J. The physical education is divided into two parts; Key 1 and 2.

The Key 1 girls are from Room J and half of Room I. The Key 2 girls are half of Room I and all the girls from Room G.

Mrs. Curtis is the P.E. teacher. In P.E. some of the freshmen girls who do not know how to play volleyball are learning real fast.

The contest was on Thursday morning. The champions from Key 1 and 2 played against each other; Key 1 girls won the game. There were some All-Star girls who played against each other too. The winners were the Key 2 girls.

The last contest we had was to combined the All-Star girls and the champions from each group. The Key 1 girls won this game.

Hurray for the Key 1 girls!

...Lucille Hopson

BIRTHDAY PARTY

They had a birthday party on the date of October 24 at the dining hall for all students who have their birthday in the month of October. There were about ten students who had their birthdays this month.

...Dorothy Larionoff

FRESHMENWRANGELL EAGLES

Tryouts for the Wrangell Institute Eagles has been going on for about a week and a half.

Mr. Brown, a graduate from Mt. Edgecumbe High School, is trying his very best to form two teams; one will be the A team the other the B team. There will be 24 boys on the entire team; 12 boys will make up the A team and 12 will make up the B team.

Forty-four boys turned out for the team this year. Many were dropped off, but the main thing is that they tried their best. The other boys that made it will have to be the ones that pull Wrangell Institute on to glory.

...Albert Kookesh

AUDIO-VISUAL CLUB

The Audio-Visual Club has already started. The first meeting was in the library and was held by our advisor, Mr. Lemley.

We elected our officers at our first meeting. Our president is Jenny Ludecker from Fairbanks; vice president is Arlene Carlo from Ruby; and our secretary is Alice Fields from Kotzebue.

At the Audio-Visual Club we have had the opportunity to type and learn to run projectors and other pieces of equipment.

...Nellie Callahorn

GOOD NIGHT!

Some of the boys and girls had new beds put into their sections. They are larger than the ones we had in the past. We know that we will get a good nights' rest -- so Good Night!

...Doris Oksoktaruk

WIND STORM

There was a little wind storm a few weeks ago here at Wrangell and in the Institute the lights were shut off because there were a number of poles that were blown down. For a while we had no lights and we went to school without lights. Then when the lights came back on everybody was happy.

...Agnes Michael

THE SNOW

On October 25, it snowed on the mountains. It is the first time we saw snow since last spring. So we are very happy to see it. Back home it has already snowed about six inches and maybe some kids are already driving dogs.

When I first saw the snow it made me homesick; it reminded of when it first snows back home. It snows then melts.

...Esther Ambrose

CHANGES IN DETAILS

There will be changes in details once again. They will be for the month of November.

I hope to get a better detail next month. Some of the children have not enjoyed their details. They too hope to get better details.

The detail I have been doing lately was the upper hall. It wasn't a very good detail. I had to mop it every night and wax it every Thursday. I got used to it after the first week. I hope to get a better detail for the month of November.

...Albert Olanna

FRESHMENWRANGELL INSTITUTE

Wrangell Institute
Is a place
Where children have
An education to face.

It has a campus
Approximately 1000 ft. square
And a deep forest
Where maybe lives a bear.

In the Institute are several buildings
Of similar shapes and forms.
Two of them
Are the two big white dorms.

There is a dining hall
Where we eat.
It is a place
That's hard to beat.

There's the Health Center
Where the sick ones go.
Would I "wanna" go there?
No! No! No!

The rest of the buildings
Are where the teachers stay.
Here they teach
Until the month of May.
...Katherine Kimoktoak

I had a dog;
His name was Spot.
Spot was always frisky
And played a lot.

One day old Spot
Was running around;
He was shot
And put underground.

...Violet Charles

HUMOR

If you get married
And live in a tree,
I'll send you a coconut C.O.D.
...Peter Green

Mrs. Curtis: John, name two pronouns.
John: Who? Me?
Mrs. Curtis: Very good, John.
...Evelyn Tuzrolyuk

Norman: How can you make a spook out
of switch?
Carl: I don't know. How?
Norman: Knock off "s!"
...Andrew Angaiak

Mom: What happened to that piece of
lemon pie?
Henrietta: I ate it.
Mom: Why?
Henrietta: I was responding to a
stimulus.
...Doris Oksoktaruk

A FEW MORE DAYS UNTIL HALLOWEEN

It's just a few more days until Halloween. I wonder what we will be doing here.

Back home, when Halloween comes, we dress up for the party in the night of that day. We have a hard time guessing who the dressed-up kids are.

Last year a boy, the son of our last year's teacher, was dressed up without a head. Boy, he was funny. He had no head, and he had a real long chest with short legs. He reminded me of the legend, "The Headless Horseman." I think the legend occurred during Halloween; I hope he doesn't come here to the Institute.

We boys and girls from Kwethluk will miss celebrating Halloween the way we do back home.

...Olinka Nicolai

HALLOWEEN

R O O M E

Halloween was fun this year. There were spooks and others around to see. Everyone was happy. In the girls dorm, there were spooks and little Dora Aketachunak. Two spooks came to the dorms, Mr. Sorenson and Mrs. Watkins. Mr. Sorenson was dressed in black clothes and on a mask. We sure got scared when we saw him. Every girl in the dorm just screamed and hollered. After that we had treats. Mrs. Goodrich, one of the matrons, brought some kind of candy for us to eat. We all thank Mrs. Goodrich of the girls dorm.

We had a party at school for Halloween. We had refreshments and we played musical chairs. We ate cupcakes with orange frosting and candies. Also we had apples and apple juice. We are very grateful to the kitchen men and women for the treats.

Alice Brown, Vera Baldwin, Lottie Sheldon, Ethel Pungalik, and Laura Kagak

SCHOOL NEWS

In the school we gave our reports from our social studies and the students who did the speaking did very well. They were a little bashful. Each committee tells about the country's exports and imports, and also about the population of the country. Each country has a story of Indians who lived long ago before white people came.

Sophie Andrew

SATURDAYS

When it is Saturday we always get up in the morning at 7 o'clock. We mop our floor and wax. When it is dry, we polish the floor. When we are done we always walk around and play marbles. The girls never play marbles, though, just the boys.

After that we eat our supper and go dress up for the dance. We will have a dance on Halloween, and I am glad.

Alvin Lieb

HIKING

On Saturdays and Sundays we go hiking only if it isn't raining. If we go on a hike the matron has to go with us. Just before we start on a hike we have to line up by twos on the left side of the road and if the car comes, we have to stop.

There are many kinds of berries. We always pick them. Gee, they are good to eat! I like blue berries best. Also, if we go into the woods to pick berries, we don't have to go very far inside the woods because there might be some bears. We have to be careful if we go berry-picking.

Ethel Segevan

NEW DETAILS

We have new details every month. Everyone is excited to know what their new details are. Every girl in the girls dorm quickly goes into the rec. room to find out what they will have to do for this month. This November all the girls are happy with their new details. The ones who might not like their details keep it to themselves so they won't make the matron feel bad about what they assign the girls to do.

Irene Susook

EDITOR'S BOX

Frieda Shanigan

VISITORS OF THE MONTH

Quite a number of people have visited Wrangell Institute during October. We would like to express our thanks to all of those who visited.

Dr. Baker, the dentist, was here for nearly two weeks checking teeth. Although he viewed the campus and its surroundings, he took pictures of Wrangell Institute.

Bishop Gordon was here also. He arrived on Oct. 13. He confirmed five people in the town of Wrangell.

Mr. Burr, the social worker from Juneau, came on his monthly visit. We hope he found everything satisfactory.

Nick Shanigan, Frieda's dad, came to visit her, and spoke with Mr. Sorenson and Mr. Watkins for a few minutes.

We sincerely hope they enjoyed their visit to Wrangell Institute. We are looking forward to having more real soon.

MATRON RETURNS

Mrs. Stokes, who was on leave from her job for two months while waiting the arrival of her baby, has returned to work. She is the head matron in the girls' dorm. While she was on leave, Mrs. Fennimore was taking her place.

We enjoyed Mrs. Fennimore while she was here. Many of us are going to miss her.

We are taking this opportunity to welcome Mrs. Stokes back. We would also like to thank Mrs. Fennimore. Here is hoping that she will visit us sometimes.

SURPRISING WEATHER

Wrangell, which usually has too much rain, got its first snow this month. The tops of the mountains and the trees are white with snow. To some, the snow brings wonderful memories of home and to others it's a big nuisance.

Back in the villages, where most of the children are from, the people have already started skating.

We have been getting a great amount of rain, but Christmas is just around the corner. I guess Santa has decided to give Wrangell some snow so it will be prepared for the night he makes his yearly visit. We certainly hope that the snow will last that long. If it doesn't, we hope that Santa will be extra nice to us in December, and give us a little more.

POPPING SEAMS

A lot of the kids have been complaining about not having enough to eat, but a great number of them have gained weight since they came here.

Some of the girls in the dorm cannot fit some of their clothes as they've gained too much weight. The same goes for some of the boys.

We get regular meals and the food is very good so we can understand why some of the seams in your clothes have started popping. So you see, you really don't have to complain about being underfed.

AROUND With SPORTS

The school team this year at Wrangell Institute consists of twenty-four players. They are evenly divided to form two squads. The A Squad known as the Eagles, and the B Squad known as the Eaglets. The Eagles will be playing against the Junior Varsity and the Eaglets will be playing against the seventh and eighth graders in town.

Mr. Brown, the coach of this year's team is a very good coach. He has the team practice for one hour school for five days a week.

The team, as Mr. Brown says, will have to depend on speed because the team in Wrangell has height over our team. With this in mind, Mr. Brown has the team running all the time to make up for the small gym. The gym here is only half the size of the one in town.

The first game of the season is not positively known, but we hope that the games this year will be exciting and thrilling to both players and students.

WRANGELL BOWS LOW TO HARLEM STARS

The Wrangell players took a beating from the Harlem Stars on the night of November 17. The Harlem Stars consisting of six players ran off the floor that night with a 59-39 victory under their belts.

The Harlem Star's uniforms were white with black trimming. The Wrangell team had uniforms of red with white trimming.

The game was full of laughter as well as it was thrills. The Stars are very good players. The Wrangell team gave them a battle, but the Harlem Stars showed their heels to the Wrangell team.

Albert Kookesh

MANY VISITORS FROM THE ANB AND ANS MEETING VISITED WRANGELL INSTITUTE THIS MONTH.

OFFICE NOTES

If there is television in town we will try to get it out here. We don't know for sure that they will get it in town. If they do get it in town we will try to get it out here at the Institute, but we will not try to get it out here alone because it will cost a lot of money.

Should the cables reach the Institute we will get for the dorms. So let's hope that the town people get it, and that we will be able to get it too.

THE ABOVE IDEA WAS EXPRESSED BY MR. WATKINS TO OUR REPORTER.

The first quarter of school ended on November 14th. This means that nine weeks of school have been completed and that it is time for the teachers to make out report cards. These report cards will be mailed home to all parents so they will be able to see the progress their sons and daughters are making here at Wrangell Institute.

Many students have been working very hard to complete their assignments. They have been taking advantage of their study periods, getting special help from their teachers and trying to do as well as they can. These students will have good report cards.

We wish to congratulate all of the students who have been doing their best work in school. We also want to encourage the students that did not try too hard. We hope that every student will try to improve their grades during the second quarter.

The Guidance Department is presently sponsoring an Arts & Crafts program which seems to be going over very well. Every student in the school is encouraged to participate in this program. The work on the projects is done in the Guidance Classroom Thursday evenings at 7:00 p.m., Saturday afternoons at 1:00 p.m., and Sunday afternoons at 1:00 p.m. Each time crafts is held there are 12 girls and 12 boys that may work on their projects. These students must sign

up with their advisors during the week prior to the time to work on projects. This limits the number of students in the room so there will be more individual help given to the students participating at the time.

Projects which the students are presently working on include beadwork, knitting, copper tooling, luster lace braiding, weaving pot holders, and sewing. Many of these projects can be taken back to the dorm to work on them during the student's spare time.

THE TUNDRA TIMES

Students at Wrangell are starting another year of enjoying reading the TUNDRA TIMES. Ten copies of this fine newspaper are received at Wrangell (courtesy of the TIMES) after each printing.

We could say that the times contributes much to the orientation of our students during the first few weeks of school. Many students read the names of parents, relatives and friends in issues of the TIMES. Just seeing these names in print sometimes create a better feeling.

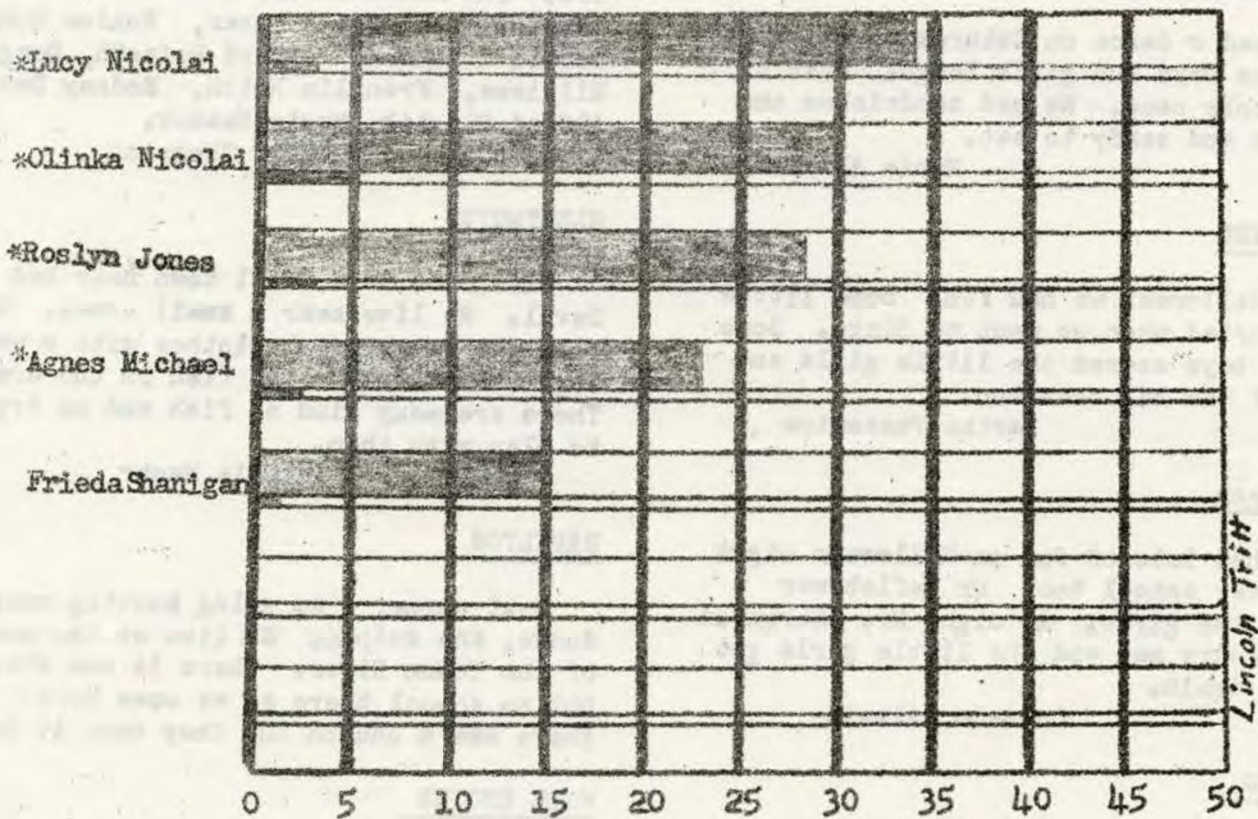

A favorite lesson with one teacher is to select names from an issue of the TIMES and flash these names on a screen using an overhead projector. The satisfaction comes in watching many faces light up with smiles of recognition.

After explaining briefly how some of the names happen to appear in the TIMES, another satisfaction comes in watching and knowing that even our younger students develop the desire to read a newspaper.

COVER ERROR

On the cover Larry Evanoff was through error designated as James Norton. And vice-versa.

TYPOGRAPH

This graph is used to show the progress of Audio-Visual and other students taking typing lessons.

The large bar shows correct words per minute. The small bar, directly under the large one, shows the number of errors for this student.

* Students with previous typing experience.

BIRTHDAY PARTY

My sister was at the birthday party at the dining hall this month. Gus Nelson from our room was there also. They had lots of fun.

Mary Afcen

HALLOWEEN DANCE

We had a dance on Saturday. Two boys made the boys and girls laugh. Most of the people came. We had sandwiches and cookies and candy to eat.

Marie Alexie

HALLOWEEN

On Halloween we had fun. Some little girls cried when we went to Bingo. Some of the boys scared the little girls and some of the big ones too.

Bertha Passamice

Halloween

We had lots of fun on Halloween night and after school too. Mr. Heflebower scared the girls. At night Mr. Sorenson was a scary man and the little girls got scared again.

Onessia Alexie

PROGRAM

We had a program about two weeks ago. We almost made a big mistake. We put the chairs for the train out before they were ready. After the program people came to say the program was fun. Some of them said Alfred Elachik made it better.

Marie Neakok

HALLOWEEN

At Halloween we had lots of fun. Mr. Sorenson and Mrs. Watkins and some girls wore some funny clothes. When I was very scared, I hid under my bed.

PARTY IN ROOM C

We had a party at school. We played games and we had apples, cupcakes, popcorn balls and hard candy.

MEASLES

A lot of people in our room had measles. The names of the ones who had measles are Natalis Macar, Eunice Ruhl, Donald Stickman, Edward Hofseth, Gerge Williams, Franklin Hotch, Rodney Deacon, Alfred Elachik, Marie Neakok.

by Mary Thompson

SLEETMUTE

Sleetmute is a small town near Red Devil. We live near a small creek. We wash dishes and wash clothes with a washing machine. We catch fish in the creek. There are many kind of fish and we try to play with them.

Natalia Macar

HAMILTON

Next summer I am going hunting muskrats, ducks, and snipes. We live at the mouth of the Yukon River. There is one store but no school there so we come here. Once there was a church but they tore it down.

FIRE ENGINE

I SAW a new fire station in Wrangell. The men said that they put out a fire with the fire engine the first day it was there.

Donald Stickman

FIRE DRILL

We had a fire drill last week. Some of the boys on our room jumped across the ditch. They did not obey the rules and walk on the sidewalk. They ran back to their room instead of walking.
